ANNOUNCEMENT

DURING the past year or two we have received many requests for a descriptive catalog of County Superintendent's Supplies so correlated that it will assist in systematizing the work in this most important office. This catalog is issued to meet these requests, and while the records and supplies herein listed form a most complete system of supervision, it may be necessary to change some forms to meet certain requirements in some states. We ask you to bear in mind that we make a specialty of supplies and records for County Superintendents, and are thoroughly equipped to meet your requirements. No other house in the United States maintains such an extensive Department devoted exclusively to County Superintendent's Records and Supplies.

This Department is under the direct supervision of a University man who has had years of successful experience as a city and county superintendent, and thoroughly understands your needs. He is an expert draftsman, and knows the printing, binding and lithograph business thoroughly. If you do not find listed the record or supply desired, write us your needs, and a pencil drawing with quotation will be mailed to you at once. Our large line of stock engravings and extensive departments equipped with modern machinery operated by experts in their particular line of work, enable us to meet your requirements at a minimum cost, and to give you

SPECIAL SERVICE

We are not only equipped to meet your needs along the line of records and lithographed supplies, but we carry a complete line of office fixtures and incidental supplies. Send us your order for any office supply from a penholder to a steel filing cabinet. We have it.

WHEN AND HOW TO ORDER

Mail us your order whenever you are in need of supplies of any kind. No order is too small or too large to receive our prompt and careful attention. When sending orders care should be taken to state quantity, numbers and description of the supply desired. If the article is to be printed special, complete copy should be furnished. Should you desire your autograph signature printed on the certificate or supply, please send your signature written with black ink on plain white paper just as you desire it to appear. This will assist us in filling your order promptly.

PAYMENT FOR SUPPLIES

Practically all of the records and supplies listed in this catalog come under the law as necessary office supplies, and should be paid for out of the general funds of the county, the same as records and supplies for other county officials. Our courts have held that the election of a person to public office carries with it the right to purchase such records and supplies that are necessary for the faithful and efficient administration of that officer's duties.

It is our desire to extend every courtesy to County Superintendents. Supplies will be shipped by freight or express prepaid or collect, or by mail as you may desire, and invoice mailed to the officer with whom bills are usually filed as per your instructions. Should funds be unavailable at the time invoice is filed, a warrant bearing the usual rate of interest stamped not paid for want of funds will be accepted as cash.

PRICES NET

All records and supplies are guaranteed to be of the latest approved forms, good stock and of high grade workmanship. Prices herein quoted are F. O. B. Factory.

PERMANENT OFFICE RECORDS

In nearly every state in the union, the County Superintendent of Schools is the only county official the law specifically states a qualification, thereby recognizing the importance of that office. If the law so recognizes the importance of this office, why not make all records as substantial as those used by other county officials? We manufacture thousands of records for the various county offices and thoroughly understand the business. A record made from high grade material by expert workmen costs more than one made from cheap material by novices, but the high grade record is cheaper and more satisfactory in the end. Cheap records must be transcribed in a few years; good records last for generations. Nothing disgraces a county office more than records with loosened leaves and dilapidated bindings.

Our records are known in nearly every state for quality and fine workmanship. Send us a leaf from your old record or a pencil copy of the form desired, stating number and size of leaves desired, with or without index, style of binding and inscription for back, and you will receive a record of which you will be proud. The foregoing color plate will assist you in selecting style of binding desired.

Full Russia Leather Binding

Three-fourths binding, leather back and corners, cloth sides.

One-half binding, leather back and corners, cloth sides, no hubs.

One-half binding, leather back and corners, cloth sides, no hubs.

EVOLUTION OF RURAL SCHOOL SUPERVISION

In "Ye Olden Times" the office of County Superintendent of Schools was referred to frequently by other county officials as a "legalized contribution to some superannuated teacher." In fact they considered the office a mere joke, the chief duties of the incumbent being to file a few reports, drive through the country in search of chicken dinners, distribute a little hot air, and draw his salary promptly.

Happily times have changed. Today the office of County Superintendent of Schools is one of the **most active** in the court house; one in which its influence is felt in **every home in the county**. The County Superintendent of Schools is the leader in all of the educational activities of the county; a course of study is maintained; he classifies the pupils in the rural schools as carefully as the city superintendent classifies the pupils in the city schools; he directs their progress; he advises consolidation here and there; he makes the **School** the social center of the community; **standardization of all schools** is his watchword.

It is with no small degree of pride that the Metropolitan Supply Company views these changes, as it has long been considered the **pioneer** in carving the way to better rural schools and the elevation of the office of County Superintendent. Other companies have come and gone with the tide, but the Metropolitan Supply Company, true to its convictions, has pressed forward. At times clouds have appeared on the horizon, but the Beacon Light has never failed. **The best talent money could entice** has been employed; thousands of dollars have been expended in securing direct information pertaining to the actual condition of rural schools in the United States, and that information has been used in the production of special equipment and supplies that would assist in systematizing the work of both superintendent and teacher.

Local conditions and laws vary so widely in the various states that our efforts would have failed largely, had we not received the **information and generous support** given by hundreds of County Superintendents throughout the United States. To these **loyal superintendents**, not only this company but the patrons of our rural schools, owe a debt that can be paid only by loyal co-operation and service. To both, this company is pledged.

Perhaps the supply that has wrought the greatest progress in rural school supervision is the **Metropolitan Classification Register**. In many states the State Superintendent of Public Instruction has designated a course of study for the rural and small town schools. Where a course of study has not been furnished by the Department, the County Superintendent has prepared and introduced one in his county, but **no course of study can be introduced and maintained without a proper classification register**. It is one thing to write a course of study, but quite another to introduce and maintain one. It requires time to develop the mind, and the classification of a school is simply putting together pupils of equal or nearly equal mental development. The Classification Register is merely a record of the pupil's mental development in the various subjects which lead to the objective whole. **The record will show the weak points that should be strengthened in the individual**

pupil. These can not be retained systematically in the mind of the teacher, or be transferred orally to her successor. Pupils removing from one district to another continue their work uninterrupted.

The **Classification Register** shows the complete organization of the school, daily program, classification of each pupil, position of classes, pupils constituting each class, text-book used, pages canvassed, percentages earned, studies completed, and a complete classification of the school at the close of the term or year. It also contains recommendations that permit the "new teacher" to take up the work at once, **avoiding unnecessary reviews and the formation of an unlimited number of classes.** Pupils continue their work systematically, complete the course of study prescribed for the rural schools and become leaders in the ninth grade of our best high schools.

This register is the very essence of simplicity, requiring no knowledge of bookkeeping and no laborious work on the part of teacher or superintendent.

At the close of the term or year as the Superintendent may direct, the teacher files a Classification Report with the County Superintendent, thus bringing the school in direct contact with his office. The Superintendent soon learns the needs of each school and is able to work effectively. When schools are closed he studies conditions and plans his work.

The **Preliminary Classification Report** filed by the teacher at the close of the first or second week of school shows whether the classification is being maintained. If not maintained, the Superintendent notes this fact and gives immediate attention to any difficulty that may exist. He thus becomes a real Superintendent. Supervision direct from his office during the first two or three weeks schools are in session will prove far **more effective** than several months spent in promiscuous visitation. If difficulties exist here and there, he corrects them at once without waiting for them to grow while he is trying to find them through hit or miss visitations. Now do not understand that we discourage visitation of schools; we appreciate the influence of the Superintendent's personal contact with the school and his influence in the district, but he should have some definite knowledge of the school and of local conditions in order to make his visit effective and permanent.

The **Metropolitan Classification Register, Classification Reporting Blank, and Preliminary Classification Report** form the foundation upon which modern supervision is based.

During the past fifteen years no less than twenty classification registers have appeared on the market as substitutes for the Metropolitan, but they have failed to stand the test and are now memories only. Make no mistake. The Metropolitan has led the way in over 70,000 schools, and will continue to lead. If you have it in your schools you appreciate its value; if you are not so fortunate, write us and we will assist you in securing a supply.

COUNTY SUPERINTENDENT'S OFFICE RECORDS AND KINDRED SUPPLIES

GENERAL RECORDS

County Superintendent's Record of Rural Schools, No. 1663. This is without question the most valuable record in the County Superintendent's office pertaining to close supervision of rural schools. The valuable information gradually accumulated, form a basis for highest efficiency at a reasonable cost of time and energy and will assist in standardizing your schools. It contains the following: District No. or Name, Teacher, Address, Grade of Certificate, Term Commenced, Length of Term, Monthly Salary, Enumeration, Enrollment, Ave. Daily Attendance, Vols. in Library, Maps, Globes, Condition of Blackboard, Heating System, Ventilation, Lighting, General Condition of School Room, Outside Surroundings—Pleasant or Unpleasant, U. County Superintendent's Record of Township Treasurer's Accounts, No. 22. A record of the moneys received and from what source, total credit, total expenditures, balance on hand, with a summary of Township fund. Form two in back of record is ruled for memorandum. 200 pages, size of page 4×7 , cloth binding. Price 1.00

COUNTY SUPERINTENDENT'S DEPOSITORY SYSTEM OF RECORDS AND ACCOUNTS, UNDER COUNTY UNIFORMITY OF TEXT BOOKS.

Form I—Depository Ledger. This ledger contains two general forms. The first contains the account with the various depositories in the county. The number of leaves in this section varies according to the number of depositories, sufficient space being allowed each depository for account to extend over a period of five years. A Russia tab embossed with the name of the depository is attached to

each section for quick reference. Pages are folio. The left hand page (Dr.) is arranged for Date of Invoice (Month, Day, Year), Invoice No., followed with a list of text books adopted with the cost price of each, and Total Cost. The right hand page (Cr.) is the same form as the left hand page. The depository is charged with books deposited, and credited with books sold as shown by his reports and remittances. The difference between the debit and credit pages will show at any time the number of each text on hand. An over stock of text books is thus avoided. The second form in the ledger consists of accounts with the various book companies. It is ledger ruled and properly printed at top of page. The record contains a standardized index in front part.

Form No. 2—Depositor's Report to County Superintendent. This report shows the number of volumes of each text book on hand at last report, the number received, Total No., the number sold, price of each, amount received, and the number on hand. Reports are carbon duplicating, about eighty reports per book. You will need as many books of reports as you have depositories. $\frac{1}{2}$ binding.

Form 3—Invoice Record. Arranged with carbon duplicates. Contains list of all text books, No., Price of each, and Amount. Number of Invoices required depends upon the number of depositories. Usually one book containing 1,000 invoices is sufficient for five years. $\frac{1}{2}$ binding.

Form 4—Depository Order Book. An order book, carbon duplicating, arranged for convenience and accuracy of the depositor in filing orders with the County Superintendent. It contains the list of books adopted, with contract price. You will need as many of these order books as you have depositories.

Form 5—County Superintendent's Order Book. This order book, carbon duplicating, is arranged for the convenience and accuracy of the County Superintendent when ordering books for the various depositories.

The system of accounts herein briefly described is without question the most satisfactory ever devised, and has proven its merit in many counties having county uniformity of text books. It consumes but little time, and enables the superintendent to determine the exact condition of each depository without long drives and disagreeable disputes. It is a business-like method of handling an account involving thousands of dollars.

Send us a list of text books adopted and number of depositories, and quotations will be made at once.

CLASSIFICATION REGISTERS, COMBINED ATTENDANCE AND CLASSIFICATION REGISTERS, CLASSIFICATION REPORT BLANKS, AND DAILY ATTENDANCE REGISTERS

We will insert in the front part of all Classification Registers and Combined Attendance and Classification Registers, a synopsis of any Course of Study not exceeding four pages, without additional charges where the order is for one hundred or more registers. Copy must be furnished by County Superintendent.

Metropolitan Classification Register, No. 1710. This register shows the standing and advancement of each pupil during the term or year, where each class began and left off work, the classification of each pupil for the ensuing term and where each class should commence work. This record with a duplicate report to the County Superintendent of Schools will bring the work of each school and each pupil under the personal supervision of that office, and enforce a uniform and systematic pursuance of any Course of Study adopted. Every register contains a complete sample section illustrating and explaining this modern system. Size of page, 13½ x 8¼, space sufficient to last the average school six or eight years, excellent stock, linen sewed, and bound in Interlaken book cloth.
Price per copy.....\$ 1.00

Metropolitan Combined Attendance and Classification Register, No. 1711. This register is so constructed that a complete record of Daily Attendance and Classification may be kept accurately in one book. The Classification form follows the Daily Attendance form consecutively for each term or year, with but one entry of the names of pupils. Every register contains a complete sample section of Daily Attendance and Classification fully illustrating and explaining the system. Size of page, 15½ x 10¼, excellent stock, linen sewed, leather back and corners, cloth sides.
Price per copy..... 1.50

Metropolitan Combined Attendance and Classification Register, No. 1712. Special Illinois Edition. The Attendance section in this register is written for five weeks to the month to comply with the law making the school month correspond with the calendar month. The Classification section is arranged in strict compliance to the new course of study recently adopted in that state. In other arrangements, size, stock and binding it is the same as No. 1711.
Price per copy..... 1.00

Metropolitan Combined Attendance and Classification Register, No. 1713. Special Iowa Edition. The Attendance section of this register and arrangement is the same as No. 1711. The Classification section is arranged special to make effective the new "Course of Study and Manual of Methods for the Elementary Schools of Iowa" issued by the State Superintendent of Public Instruction. While this register is written special to meet the demands of one of the most extensive courses ever published, the arrangement for correlation of subjects is so simple and unique that it renders the register a most valuable one for use in any state or county where a system of classification and gradation has been maintained a few years. Size and style of binding same as No. 1711.

Price per copy..... 1.50

Adoption price, \$1.00 per copy.

CHARACTER BUILDING SYSTEMS

Every American whether in youth or old age has a desire to win something. To Win is the spirit of America, and is manifested in every American institution. The United States Treasury Department recognized this fact during the Third Liberty Loan when it offered an Honor Flag to every town in the country that sold its quota of Liberty Bonds during this campaign. You will remember that every town that won the Honor Flag had its name inscribed on the State Honor Roll under a State Honor Flag that was unfurled at the State Capitol. The result in each state was indicated on a National Honor Flag raised in the Treasury Department in Washington and is there now. Do you remember how the various states contested for first place on the National Honor Flag and how Oregon won over Iowa by only a few hours? Some contest, but the Third Liberty Loan went over the top in a hurry.

Every pupil in our public schools has this same desire to win, whether the award be for Perfect Attendance, Spelling, or any other contest. Our systems of Perfect Attendance, Spelling, Library, and Home Work not only afford this opportunity for contest, but while winning these awards the pupil forms the habit of punctuality and application to duty which are of vital importance during the formative period of the child.

Introduce these systems in your schools and learn their value as permanent character building forces.

Our certificates and diplomas are beautifully lithographed from engravings and are not to be compared with those printed from photographic reproductions on cheap zinc plates. We have our own engraving and lithographic departments, therefore our certificates and diplomas are works of art. They cost no more than the "muddy" photographic reproductions, because we are equipped to produce the genuine at a minimum cost. Order the best; children appreciate the beautiful.

PERFECT ATTENDANCE SYSTEM

Instructions to the Teacher for the Use of Certificates of Perfect Attendance.

enclose herewith a book of Certificates of Perfect Attendance to be used by you for the purpose of stimulating the attendance and punctuality of your pupils. They are to be issued to all pupils who have been neither absent nor tardy for one school month. Sign your name and fill in the name of the school or district number.

The following rules should be observed:

1. Keep correct time and a correct and impartial record of attendance for inspection of pupils, patrons or school officers.

2. When a pupil has attended school one month without loss of time from absence or tardiness, issue him one of these certificates.

3. When he has earned..... of these Certificates certify the fact to the Superintendent, who will issue him a large Certificate of Award.

When..... large Certificate of Award are earned you will notify the County Superintendent who will issue to the pupil receiving same a beautiful Lithographed Diploma of Honor direct from the office.

You are especially cautioned against making allowance for any failure on the part of pupils to comply with requirements. They must attend every day and be on time in order to receive this certificate. No allowance must be made for tardiness, even if it is only for a minute. The rules are absolute.

I anticipate that the use of these certificates will greatly increase the attendance and stir up interest and enthusiasm among the pupils, which will in the end materially increase the value of your work.

If we can get the children into the school every day, then it is our fault if they do not do as well in their work as their talents will warrant.

When you leave the district you will place the remaining certificates in your register and leave them with the proper officer of the Board. Under no circumstances should they be mislaid or lost.

Please take hold of the matter with interest, and you will find ready response from your pupils.

COUNTY SUPERINTENDENT.

Instructions to Teacher.

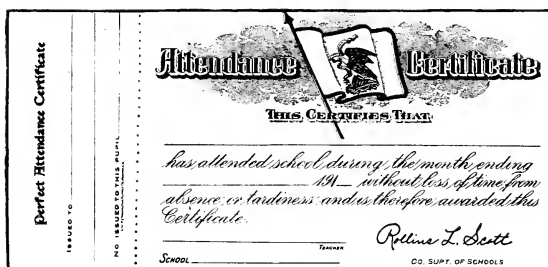

Instructions to Teacher. These instructions are placed in the front part of each book of Perfect Attendance regardless of the style of certificate used. "I believe there is much I can do in my country home. Through studying the best way to do my everyday work I can find joy in common tasks done well. Through loving comradeship I can help bring into my home the happiness and peace that are always so near us in God's out-of-door world. Through such a home I can help make real to all who pass that way their highest ideal of country life."

COMMUNITY CENTER MEETING IN A RURAL SCHOOL

LIBRARY SYSTEM

This system is to encourage the reading of good books. In many states, laws have been enacted requiring Boards of Directors to appropriate a certain amount of money per pupil, to be expended annually for library books. As a result, nearly all of our rural schools have well selected libraries. In many schools these libraries are ornaments only, and school officers refuse to purchase additional books because those already in the library are not used.

During the past few years we have received many letters from County Superintendents and teachers requesting suggestions pertaining to the use of school libraries. Some two years ago a teacher propounded this question: How may I remove the dust from the books in my school library without using a duster?

We did not care to discuss this question from a psychological standpoint, but merely advised her to try our Library System, and suggested that she select books bearing upon subjects the pupils were studying, and permit them to take books home for a limited period. We suggested that she not confine her recitation references too closely to the text in use, as the power of suggestion frequently removes dust from our oldest volumes. A short time ago we received another letter from this teacher propounding quite a different question. She was still teaching the same school, and still worried. Not only her pupils were reading the books in her school library, but their parents were reading them, and frequently insisted upon keeping them two whole weeks and she did not have books sufficient to grant their request. What could she do to secure the prompt return of these books without offending the parents? She knew they desired the books, as they often came to look over the library and remained to visit the school; they seemed to be so interested. We congratulated her, and suggested she hold a basket sociable or some entertainment to secure funds with which to purchase more books, that her patrons were interested and would enjoy the evening together.

We await results. We do not know this teacher personally but believe some morning she will awake to find her school a Community Center. She has removed the dust from her school library without using a duster. This is not fiction, but cold facts.

Our Library System encourages the reading of good books; it takes these books into the homes and creates an influence for good that time cannot destroy.

LIBRARY SYSTEM

A system to encourage the reading of good books.

STATE LIBRARY CERTIFICATE No. 1
 Copyright, Metropolitan Supply Co., 1894

TO THE TEACHER

You will find herewith enclosed State Library Certificates of Award which are to be used in your school for the purpose of arousing an interest in the reading of good books—especially those purchased by the district and school officers.

Please announce to your school that you will issue one of these certificates to each pupil who has satisfactorily read one library book, mutually agreed upon by teacher and pupil. The book agreed upon must be read at home, and the number of books thus selected is hereby limited to FIVE during the year.

It is suggested that books bearing on the proper habit of thought and life—books whose purpose is a healthy character-growth, development—be given the preference.

Pupils above the fourth grade should be required to write a review of each book read, as a test to determine how well the reading is done.

When a pupil has received FIVE of these certificates, the County Superintendent will issue to that pupil a much larger State Library Certificate; when a pupil has received THREE of the larger certificates, the County Superintendent will issue a State Library Diploma.

It is expected that the use of these certificates will cultivate in pupils a desire to read good books, and utilize intelligently the money expended annually by patrons and school officers for library books in your school.

If you will kindly take hold of this work with the interest it merits, you will not only benefit your pupils, but will have the commendation and active co-operation of parents and school officers.

Yours respectfully,

Instructions to Teacher.

Instructions to Teacher. The above instructions are placed in the front part of each book of No. 50 Library Certificates. These instructions may be changed to read as desired, without extra charge, in orders for 5,000 or more certificates. Be sure to send copy with order, should you desire instructions printed special.

MODERN SUPERVISION

BOYS' AND GIRLS' HOME CANNING CLUB—TEACHER AND
COUNTY SUPERINTENDENT OF SCHOOLS CONDUCTING
A SATURDAY AFTERNOON CANNING SCHOOL.

THE HOME, THE SCHOOL—A UNITY

One modern trend of education is the training of the Head, the Heart, the Hand. The old idea of education was the intellectual, or head training only. Very recently, the industrial side of education has made such marvelous strides that we feel called upon to meet its demands.

To meet this demand requires even greater co-operation of parents and teachers. The work at home, whether it be feeding the chickens or washing dishes, milking the cows, or whatever requires labor, is a part of industrial training. This plan of credits, therefore, is to more closely unite the home and the school in these important phases of education.

At this age, the child is forming habits that go with him through life—habits of industry, of neatness, of health, of punctuality, of honesty, and morality which will be worth to him, in future years, far more than can be measured in dollars and cents.

The condition and equipment of our rural schools are inadequate to alone meet the demands of industrial education. This is another reason for calling upon the home for assistance.

Country life is, after all, the ideal life. Training our young to love country life and labor is in harmony with the safest, purest and most ideal industrial education.

METROPOLITAN DIPLOMAS

Metropolitan Diplomas need no introduction as they are used in every state in the Union, in Government schools, and in many foreign countries. We have over one hundred distinct styles covering nearly every phase of educational work.

The diplomas herein listed are for rural and small town schools only. Should you fail to find your ideal listed, please write us your desire, and samples with quotations will be mailed you at once. Remember we are specialists in this work, and have an unlimited number of engravings from which we can make you a special diploma at a low cost.

There are a number of photographic reproductions of our diplomas on the market. Be not deceived. Photographic reproduction always detracts from the original engraving. It looks broken and muddy. Place your order with us and receive diplomas made from original engravings. They cost you no more than photographic reproductions.

Gold Seals and Ribbons. Gold seals either blank or embossed "County Superintendent of Schools" will be furnished free with diplomas, but when gold seals and ribbons are desired, an additional charge of three cents each will be made. When placing orders, kindly state whether gold seals, plain or embossed, and ribbons are desired. Always specify colors of ribbons and make a second choice of colors as occasionally certain colors can not be obtained.

Diploma Stock. The ledger stock used is selected for diploma work only. It has an ivory finish, very heavy, tough, and makes a beautiful diploma.

Artificial or Art Parchment. What is it? This question is asked frequently by prospective buyers not familiar with stock. Art is merely an abbreviation for **Artificial**. Artificial Parchment is a very heavy paper of light creamy tint, slightly rippled finish, made to imitate genuine parchment or sheepskin. The stock is hard and tough, and is the best substitute for genuine parchment ever produced.

When ordering diplomas specify the stock desired.

Cuts for Vignette Use. No extra charge will be made for inserting cut of building in usual vignette when a suitable cut is furnished by the customer, otherwise actual cost will be added to initial order. Be sure to send a good photograph of the building desired. Colored post card views do not produce satisfactory results.

SUPPLIES FOR SCHOOL OFFICERS

It is conceded by our most progressive County Superintendents that a uniformity of legal blanks and supplies used by school officers and teachers is essential to efficient supervision of rural schools, as these reports and supplies have a direct influence on the County Superintendent's office. In recent decisions our courts have held that these reports and supplies form a part of the Superintendent's system of supervision, therefore may be furnished school officers and teachers by the County Superintendent, and paid for out of county funds. The supplies herein listed are in conformity with the latest school laws of the state designated. All forms are carried in stock and can be shipped immediately.

IOWA FORMS

School Officers' and Directors' Manual of School Laws of Iowa—New Edition. A complete review of the School Laws of Iowa told in plain English. Practicing attorneys will tell you that School Laws are the most difficult to interpret in our Code. They require special study, therefore school officers should not be criticised for filing their copy of School Laws with Marache's Manual of Chess in the same pigeon-hole. A copy of our School Officers' and Directors' Manual should be in the hands of every school officer and director in the state. It is kept strictly down to date, being revised after the adjournment of each legislature. 64 pages, pamphlet binding.

Treasurer's Receipt Book, No. 1729. The Secretary's and Treasurer's records must check as to items specified in their financial records, otherwise their records will not show correct receipts and disbursements as required in their reports to the County Superintendent. The treasurer should give a receipt for all moneys received, designating under what item of distribution it has been entered upon his record, and send a duplicate copy to the secretary for entry on his record. This is a matter of good business methods. If County Superintendents will insist upon secretaries using order books, and treasurers using receipt books, showing same distribution of funds as shown in their financial records, many difficulties will be alleviated, and reports will be facts instead of jokes. Our receipt book contains 35 receipts in duplicate General Fund, and 15 receipts in duplicate for Schoolhouse Fund.

HELPS FOR TEACHERS

We herewith list a few helps for teachers furnished free by County Superintendents.

Teacher's Code of Ethics. This little work of but 32 pages covers the moral and professional duties of the teacher to the County Superintendent of Schools and to patrons of the school. A wonderful little booklet to produce harmony and efficiency in our rural schools, and will not harm many of our city teachers. Over fifty thousand have been sold. Many County Superintendents keep a supply on hand to be presented to young teachers.

The Progressive Music Course. This is a one-book course in Public School Music. It contains the rudiments of music simply and carefully explained. The key drill alone is worth the price of the book. It contains music for every possible occasion—bees, birds, flowers, animals, trees, seasons, marches, Memorial Day, Fourth of July, Christmas songs, with many old favorites and sacred selections. The author, Dr. Bartlett, has long been one of the most popular instructors in public school music in the United States.

144 pages, bound in full cloth, only..... .35

Practical Child Study. This book is not merely generalities about child study. It shows how to study children and points out successive steps in the work. It fills the gap between psychological lectures and the teacher—between theory and practice. To make the work more practical, it contains charts and outlines for recording the principal elements of each child's character, and gives directions for keeping such character record.

133 pages, bound in full cloth..... .35

Elementary Civics Outline—Iowa and the United States. One of the most comprehensive outlines published. It considers briefly the political history of Iowa, the geography of the state, resources and industries, and its government. It is used in hundreds of Iowa schools as a supplementary text book.
Price per copy, 15c; per 100 copies..... 12.50

How to Organize and Classify a Country School. This little book is what its title implies. After discussing a few "Preliminaries"—Securing a School, Getting Acquainted with the District and Preparing for the "First Day"—the question of classifying the school is discussed carefully. This should be read by every person intending to teach a rural school. An excellent Course of Study is presented briefly for schools in states and counties having no authorized course. Excellent suggestions and methods in teaching the common branches are given that will prove of great assistance to young teachers having had no special training. The chapter on school government is worth the price of the book to any teacher. 107 pages, bound in full cloth..... .30

The School and Farm. Elements of Agriculture, nicely illustrated. Too heavy for use as a regular text-book, but excellent for supplementary work. Should be in every rural school library for reference.

Lessons in the Study of Habits, by Dr. Walter L. Sheldon. This book should be read by every boy and girl in our public schools. It is a marvelous work written in language interesting and easily understood by children from nine to fourteen years of age. Subjects of the chapters are as follows:

Meaning of Habit—A Further Consideration of Habit—Perseverance—Being Conceited—Order—Consideration of Others—Being Lazy—Deception—Being Saving—Being Soldierly—Citizen Soldiers—Chivalry—Ambition—Procrastination—Habits of Play—Self-Denial—Being Brave—Habit of Teasing—Humility—Pride—Frugality—Habits of Study—Exaggeration—Profanity—The Habit of Borrowing—Habits of Service—Generosity and Stinginess—Cheating—Prejudices—Respect for the Property of others—Conscientiousness—The Habit of Speaking the Truth.

Each of these topics is taken up for consideration one by one, studied and analyzed in its favorable and unfavorable aspects, with the assistance of poems, proverbs, anecdotes, etc.

If you wish to assist the boys and girls under your supervision to become noble citizens, place this volume in your school libraries. It contains diamonds that will sparkle throughout the life of every boy or girl who reads it.

TEXT BOOKS

Longwell's Grammars. Inductive Method. The following points set forth the special features of the book in their application to actual class room work:

1. Through the inductive lessons the pupils are led to comprehend the subject in the most natural and satisfactory manner.
2. The models afford additional explanation of how the work should be done.
3. The plan of the oral work in connection with the written work gives a very comprehensive idea of the subject.
4. The remarks and notes; the special directions to pupils; the great variety of sentences; the method of explaining gender and case; the classification and treatment of the verb; the lessons on analysis and the closing lessons and quotations are striking features of this publication.

Our State and Nation—Revised Edition for Iowa. This is without question the best text book on Iowa Civil Government ever written. Beginning with the School District it leads the pupil through the various organizations, step by step, in a way that the study becomes exceptionally attractive. This book has been practically rewritten since the adjournment of the last legislature, and contains many interesting features found in no other Civil Government of Iowa published. 222 pages, bound in full cloth..... .75

Our State and Nation, Illinois Edition, by U. J. Hoffman. This is not a Civil Government of the United States with a few pages devoted to state government, but is devoted entirely to Illinois. A prominent educator in Illinois writes as follows: It reads like a story; so interesting, so plain, so easily grasped and readily understood by the children. 128 pages, bound in full cloth..... .75

RULE BRITANNIA

YOUR FLAG AND MY FLAG

THE MARSEILLAISE

FLAGS OF THE ALLIES

TO PREVENT MISUSE OF THE FLAG

THE FLAG of the United States had its statutory beginning on June 14, 1777, with thirteen stripes, alternate red and white; thirteen stars, white in a blue field, the stars five-pointed. On April 4, 1818, "An act to establish the flag of the United States" provided for the addition of one star on the admission of every new State, to take effect on the next succeeding Fourth of July. On October 29, 1912, President Taft established the proportions of the flag, its length one and nine-tenths times its width, in executive order No. 1637.

To-day the union (the blue field) contains forty-eight stars, "six rows of eight stars each, with the corresponding stars of each row in a vertical line." The union is in the upper left-hand corner, is two-fifths of the length of the flag, crosses seven stripes, and rests upon the eighth, which is white. The rules are fixed. No other arrangement, no other proportions, can be called the United States flag.

Its misuse, or careless soiling, its neglect, may be avoided by observance of these five simple rules:

1. Display Old Glory from its own pole, by day only, with union at top of pole.
2. If no staff or pole is available hang the flag undraped against a wall, right side out, which will bring the union in the upper left-hand corner if the stripes are horizontal, or in the upper right-hand corner if perpendicular.
3. Put it higher than your head.
4. See that the flag you have is not of a type obsolete. Let it have forty-eight stars in even rows, with its length one and nine-tenths times its width and two and one-half times the length of the union, the latter crossing seven stripes and resting upon the eighth, which is white.
5. For draped decorations and profuse expressions of the patriotic spirit use the red, white and blue without stars. Give the flag itself an elevated, conspicuous place.

WHEN THE FLAG SHOULD BE DISPLAYED AT FULL STAFF

Lincoln's Birthday.....	February 12th.
Washington's Birthday.....	February 22d.
Jefferson Day.....	April 17th.
Battle of Lexington (Patriots' Day).....	April 19th.
*Memorial Day.....	May 30th.
Flag Day.....	June 14th.
Battle of Bunker Hill.....	June 17th.
Independence Day.....	July 4th.
LaFayette Day.....	September 6th.
"Star Spangled Banner" Day (Baltimore).....	September 13th.
Paul Jones Day.....	September 23d.
Columbus Day.....	October 12th.
Battle of Saratoga.....	October 17th.
Surrender at Yorktown.....	October 19th.
Evacuation Day (New York).....	November 25th.

*On Memorial Day, May 30th, the Flag should fly at half staff from sunrise to noon and full staff from noon to sunset.

IN ORDER TO SHOW THE PROPER RESPECT FOR THE FLAG THE FOLLOWING CEREMONY SHOULD BE OBSERVED:

It should not be hoisted before sunrise nor allowed to remain up after sunset.

At "Retreat," sunset, civilian spectators should stand at "attention" and uncover during the playing of the "Star Spangled Banner." Military spectators are required by Regulation to stand at "attention" and give the military salute. During the playing of the National Hymn at "Retreat" the flag should be lowered, but not then allowed to touch the ground.

When the National Colors are passing on parade or in review, the spectator should, if walking, halt, and if sitting, arise and stand at "attention" and uncover.

When the National and State, or other flags fly together the National Flag should be placed on the right.

When the flag is flown at half staff as a sign of mourning, it should be hoisted to full staff at the conclusion of the funeral.

In placing the flag at half staff, it should first be hoisted to the top of the staff and then lowered to position, and preliminary to lowering from half staff, it should be first raised to the top.

The National Salute is one gun for every State. The International Salute is, under the Law of Nations, 21 guns.

"RE-MOVE-ABLE"

GALVANIZED

STEEL FLAG POLES

THESE Flag Poles are made of galvanized high carbon steel tubing, the lower half being FILLED WITH CONCRETE. This material is about twice as strong as the pipe out of which Flag Poles are usually made.

The poles are in sections that telescope into each other thus making double strength at the joints. This is preferable to the usual reducer couplings as cutting the thread for these makes the joints the weakest part.

Sockets for the 50 ft. poles are $4\frac{1}{2}$ in. in diameter and the sections gradually taper. The shorter poles are smaller in diameter but they also are more than strong enough to resist any wind pressure.

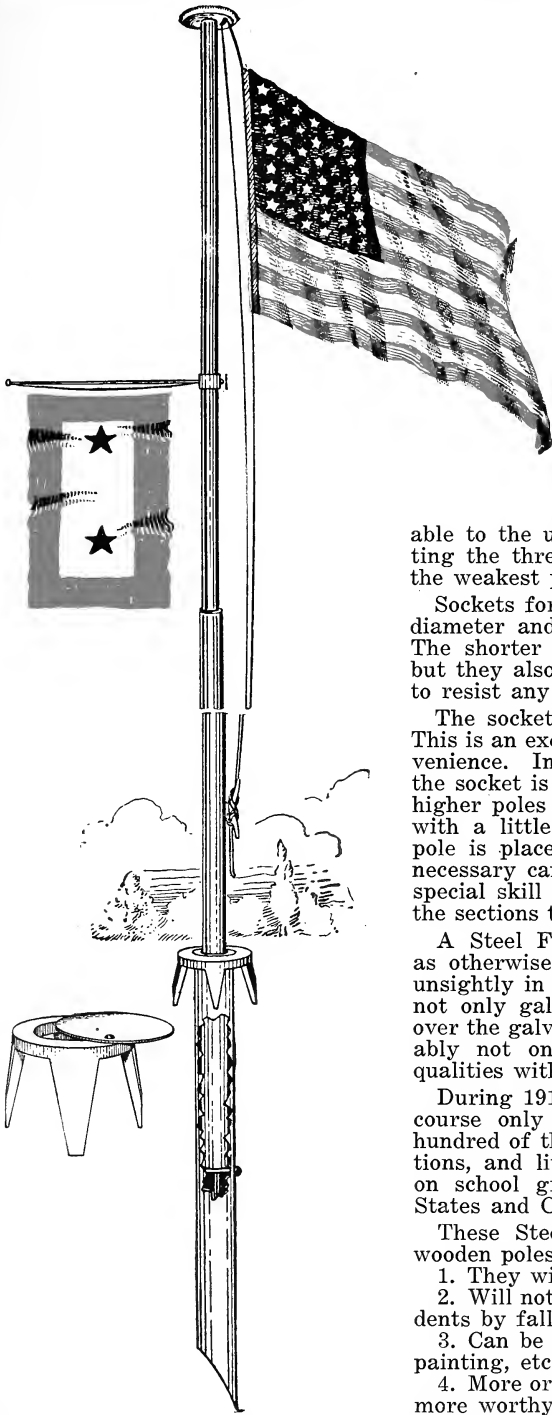

The sockets are separate from the poles. This is an exclusive feature and a great convenience. In the case of the shorter poles the socket is driven into the ground but for higher poles it is usually set in the ground with a little concrete round the top. The pole is placed in the socket and whenever necessary can be lifted out. It requires no special skill to drive or set the socket, put the sections together and erect the pole.

A Steel Flag Pole should be galvanized as otherwise it is sure to rust and become unsightly in a short time. These poles are not only galvanized but aluminum painted over the galvanizing and will compare favorably not only in appearance but lasting qualities with any Flag Pole on the market.

During 1917 the Standard Oil Co. who of course only use the best, bought several hundred of these poles for their service stations, and literally thousands were erected on school grounds throughout the United States and Canada.

These Steel Flag Poles are superior to wooden poles for the following reasons:

1. They will last at least twice as long.
2. Will not rot at the base, and cause accidents by falling.
3. Can be lifted out of the socket for re-painting, etc.
4. More ornamental and reliable, therefore more worthy of the Flag.

PRICES OF STEEL FLAG POLES

The prices and heights above ground of the poles complete in every particular including ornamental truck and Manila rope halyards are as follows:

20 ft. \$12.50	35 ft. \$24.00
25 ft. \$17.50	40 ft. \$28.00
30 ft. \$21.00	50 ft. \$50.00

Roof Poles add 30 per cent. to the above prices. This is to cover the cost of larger tubing, fittings, etc.

Service Flag Holders 22 in. long, 50c extra, and 2c extra for each additional inch in length.

PENCILS

The Metsuco Pencil has a green finish, hexagonal shape, embossed gilt tip, finest quality ruby rubber eraser. This pencil is manufactured exclusively for us, and is the result of years of careful study and experimenting as to the color and consistency of lead most suitable for use in the school room and office. This was no small task, but the result is well worth the effort, for in the two grades of our "Metsuco" pencil you will find lead suitable for use with any quality of paper.

The No. 2 grade is a medium soft pencil for use with soft cheap papers either in the highly glazed or rough finishes. The lead is high grade graphite with maximum wearing qualities.

The No. 3 grade is the finest Office Pencil made. We will match them against any brand regardless of price. The lead is as smooth as velvet and just firm enough to make it the best all around office pencil on the market. Guaranteed to be best possible quality.

Cheapest because they are Best.

THE SENGBUSCH MUCILAGE APPLIER

The Sengbusch Refillable Mucilage Applier is moulded in one piece, of genuine hard rubber, polished, and presents a very neat appearance. Projecting shoulders on both sides keep it raised from the surface when it is laid down. The highly polished nickel top gives it an attractive finish, and altogether it is an ornament to any desk.

The cap is made of spring brass, nickel plated, and with a flexible cushion inside, which securely closes the end of the tube. It springs on over lugs on the end of the tube, holding it firmly. Just slip the cap off, fill with mucilage from the bottle, replace cap, and it's ready for use. No delay. No trouble. No muss.

One filling will last, in average use, several months, because none of it is wasted.

The tongue is of soft rubber. When pressed against the paper it bends back and uncovers an opening in the hard rubber underneath and allows the mucilage to flow down. Tongue spreads it evenly over the surface. The instant the tongue leaves the paper it springs back into place, sealing the opening like a cork. No smearing, no waste.

THE IDEAL SANITARY MOISTENER

Here's a moistener for fingers, postage stamps, gummed labels, envelope flaps, etc., that applies the right amount of moisture, quickly, surely and easily. It is sanitary and efficient. The wheel revolves without resistance or noise. Nothing to wear out, no rubber to harden or become useless; no sponge to sour with accumulating filth; no wicks, felt or gauze to fill up. Made of glazed white porcelain with nickel polished metal parts.

It saves time and money; it saves soiling of fingers; it saves mussy splatterings of water.

Take the Bother
Out of
Document Filing

What makes this Document Envelope different?

*"No Rubber bands or
tapes" you say.—"Then
what does hold it closed?"*

Two nickeled spring
steel clasps, one on
each end, that grip the
folds at any expansion
desired.

By this arrangement
there is no obstruction
on the outside. The
clasps slide in under
the fold and are out of
the way leaving envel-
ope perfectly smooth of
surface on all sides.

With Bandless Document Envelopes

"How about Durability?"

The durability is incomparable. Being made only of paper and metal there is nothing to rot, such as rubbers; no tapes to wear in tying or un-tying and the heavy, high grade manila paper will last indefinitely.

Nothing to Catch

*No rubber bands to rot
No strings to break
No tapes to tie or decay
No hooks to catch
Eliminates annoyance
Documents spick and span*

The **BANDLESS** exactly fits into the wish you have often expressed and sought in vain to satisfy. It saves 25 per cent or filing space.

If the "BANDLESS" fails to suit don't pay for it.

If you do not find the **Bandless** the finest thing of its kind you have ever seen—if it fails to do any of the things we claim for it you do not have to pay us one cent. We guarantee every envelope.

MAILING DEVICES

POLLY WRAPPERS

A polly wrapper is a mailing device which is preferred by many to the mailing tubes. It is a piece of chip-wood with wrapper attached and lays perfectly flat. The article to be mailed is placed on top of the flat surface and is rolled up and tied with the tension spring. It is lighter than the tube and much more convenient for inserting and also removing the article to be mailed.

THE "BIG BEN" PERIODICAL BINDER

County Superintendents have long desired a suitable binder for filing circulars from the State Superintendent and other printed matter. The "Big Ben" Binder meets every requirement. Circulars of various sizes may be inserted if desired, and held firmly in place as a bound book. Sections may be removed without injury to the binder. Covers are heavy and have the appearance of a bound volume.

How to Operate the Binder.

FIRST: Unlock binder by pushing sliding rod to the right and pull out the binding rods.

Mark with pencil the two spots where the magazine strikes the binding rods, as shown in Fig. 1.

SECOND: Open the magazine to about the center, and mark with a pen knife or paper cutter, make a slit through the back of the magazine at each pencil mark and insert tie clips (single or double) into position as shown in Fig. 2. (If the magazine is side stitched be sure to make the slit through the center of a section.)

Fig. 1

Union Tie Clip

Fig. 2

Single Tie Clip

Fig. 3

THIRD: Slip the tie clips over the binding rods and close the binder, Fig. 3.

No Punching of holes necessary.

WEBSTER'S NEW INTERNATIONAL DICTIONARY

This New Dictionary contains more than double the number of words and phrases found in its predecessor, The Webster's International Dictionary. The aim of the publishers has been to make the work at once a thesaurus for the scholar and a handbook for all who read or speak the English language. Important changes have been made, the principal of which—the division of the page with the important words above and the less important below—shows a marked progress and facilitates quick consultation. **The important words are printed in clear type,** and not crowded as formerly with words of minor importance.

The Spelling and Pronunciation recorded is the best English usage, ascertained with special care. The historical arrangement of definitions is used throughout, presenting a picture both of what the English language is today and, in no mean degree, of what it has been at all preceding periods. The Synonyms are entirely a new work and in extent and character distinctly superior to the old; the Etymologies have been revised throughout and in many directions represent original work of special value; Legal terms are treated with more fulness and precision than in any dictionary; the Natural Sciences, Religious and Theological terms, Military and Nautical definitions, Mechanical and Civil Engineering, Mechanic Arts, Social Science, Music, Domestic Arts, completely handled.

PICTORIAL ILLUSTRATIONS have been increased to about 6,000, and utility and accuracy were the guiding principals in their selection and execution. The Biographical dictionary and Gazetteer of the World have been enlarged and corrected in accordance with the latest authorities.

This work contains more information of interest to more people than any other. Over 400,000 defined words and phrases with general information practically doubled, it represents the results of the highest scholarship while the superior quality of paper, excellence of press work and fine binding recommends it to those who want the best, and a work that is new from cover to cover. Contains 2,700 pages, 6,000 illustrations. Full Law Sheep Binding. Patent Thumb Index. Weight, 15½ lbs. Size, 12¾x9¾x5¼ in. Price to Schools and Public Libraries, \$12.60.

Bound in Buckram, marble edged, indexed. Special price to Schools and Libraries, \$10.80.

STUDENT'S EDITION

760 pages. 840 illustrations. 19 full-page plates. Etymologies and derivations. Hemispheres in colors and special frontispiece. Special dictionaries of music, biography, geography, biblical, historical and classical names. Size, 5x7 inches. Weight, 1 lb., 6 oz.

METSUCO DESKS

The Desk That Makes Customers Our Friends

The design of the standard is a simple, plain pattern, very graceful, yet with weight so distributed as to embody great strength; irons form our well known superior cast SEMI-STEEL enameled with black Japan, well baked on, assuring a high and lasting lustre. This desk lacks the fussy, flashy, old-style scroll carved effects of old-style desks. Why buy obsolete, inartistic styles, when new, up-to-the-minute cost so little more?
